

LED Lighting is a BUZZ Word

it's exciting technology with a lot of promise
but can it really pay for itself ...

If you replace a 100 Watt Incandescent with a 10 Watt LED the savings = **90%**

If you have 100 parking lot lights, warehouse lights or gymnasium lights that use a 400 Watt Metal Halide and they are on for 12 hours a day the kilowatt consumption is 526.6 kilowatt hours of electricity per day or **192,192** kilowatt hours of electricity per year.

Change out the old technology to our equivalent LED light and watch the electric meter drop to **38,438** for an 80% savings.

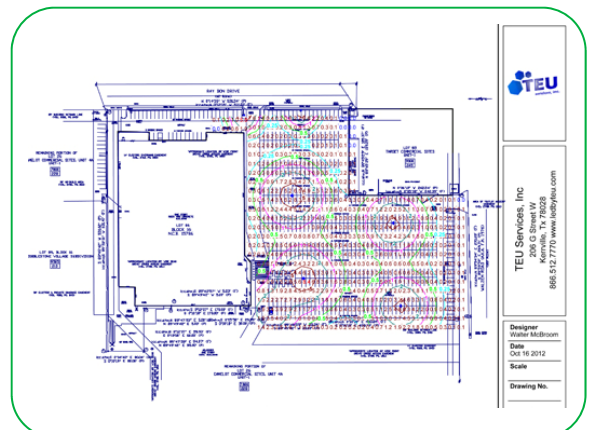

kWh per year

We have developed software to demonstrate the simple math, prove the energy reduction and total savings. The math is simple, prove it, don't guess.

We know the science of lighting design and are able to offer lighting solutions and specify products accurately. *We never guess at which LED lights to recommend, we use science and software.*

We have finance companies to offer a **"no cash out of pocket"** solution. Loan payments are generated from electricity and maintenance savings and usually result in a positive cash flow each month.

We have a nationwide network of Independent Consultants that assess your lighting needs to provide your business with Top of the Line Leading Edge LED Lighting technology.

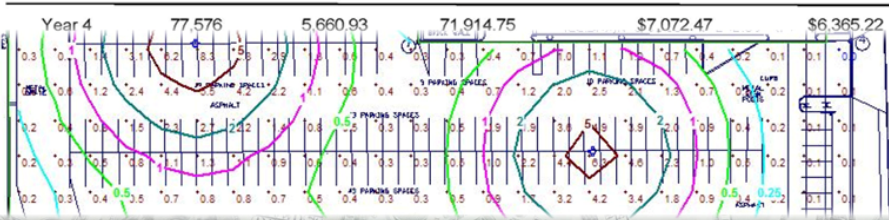

We have Factory direct relationships with numerous American and Foreign Manufacturers because we want to offer you the best products and the best warranties on the market.

Our national Reps have an iPad App allowing them to input lighting surveys and data, no emailing or handwriting important details.

New LED Lighting will match or exceed your existing lighting

◇Photometrics and lighting design is part of the package.

All Manufacturer's Warranties will be honored by TEU Services, Inc.

◇If an LED installed by TEU fails, call our toll free number 866-512-7770, NO wasting time chasing a manufacturer, we'll take care of it.

◇LED lighting installed by TEU's Team of *CERTIFIED INSTALLERS* means you can call the toll free number 866-512-7770 and we'll take care of it from there.

No Cash out of Pocket ... LED lights are financed with approved credit

◇**Funds to cover the payments will come from redirecting money that you are paying to the electric company and spending on maintenance. GUARANTEED!**

The Return on Investment is backed by TEU's Certificate of Performance

◇The Certificate of Performance is based on analysis of 12 months electrical statements, a survey of existing lights and hours of operation per day/per week.

A Five Year Insurance Policy insures the Certificate of Performance. A true No Cash out of Pocket. All potential risk is covered.

◇**The only risk involved is the risk of waiting and continuing to pay high electrical bills and continuing to deal with lighting maintenance.**

Plus, Factory rebates, Utility rebates, tax incentives and deductions will be applied!
